

Step by Step on The Mountains of Omiš

walk on the thematic circular trail of Saint Leopold Mandić on Mosor, relaxing on a tour of Omiš, enjoying a medical massage, hiking on the Poljička planina, and excursion to the Church of our Lady of Snow

Enjoy hiking on the mountain and look at the world from on high. Accompanied by our professional guide for people with disabilities, hiking is not a problem! It's an ideal chance to breathe clean air, and enjoy views of the sea and the sun-drenched island of Brač. Take a walk on the thematic circular trail of Saint Leopold Mandić, near the hydroelectric power plant of the same name, where you will discover the natural and cultural characteristics of the region through eleven resting places, five lookouts and ten informational and educational signs. Look forward to hiking on the Poljička planina mountain range to the Church of Our Lady of Snow. A medical massage for relaxation of muscle fibers will be your special reward, or a good preparation for another long walk. Where the Cetina River meets the sea, fall in love with the natural beauty and charm of the small Dalmatian town of Omiš.
